Information Technology in Harmony

Intelligent Hospital Solutions

PT Maestro Global Informatika

ADVANTECH

Enabling an Intelligent Planet

www.maestroglobal.co.id

Company Overview

- Established in year 2008
- Focusing on Information Technology Services
- Run by experienced team
- Broad range of expertise in Information Technology
- Various client reference across vertical market from small medium business to enterprise and government organization.

Our Service Offerings

Our IT Service offering:

- Consulting
- Outsourcing
- Managed Infrastructure Services
- System Integration
- Custom software development
- Web design & Internet Marketing

Our Product Offerings

Over the years we have been in the business, we have successfully developed our own product as follows:

- SMARTHIS (Hospital Information System)
- Prime Business Suite (Business Software)
- Prime Doc (Document Management System)

We have access to the source code of those software, and we can customize to match your business needs.

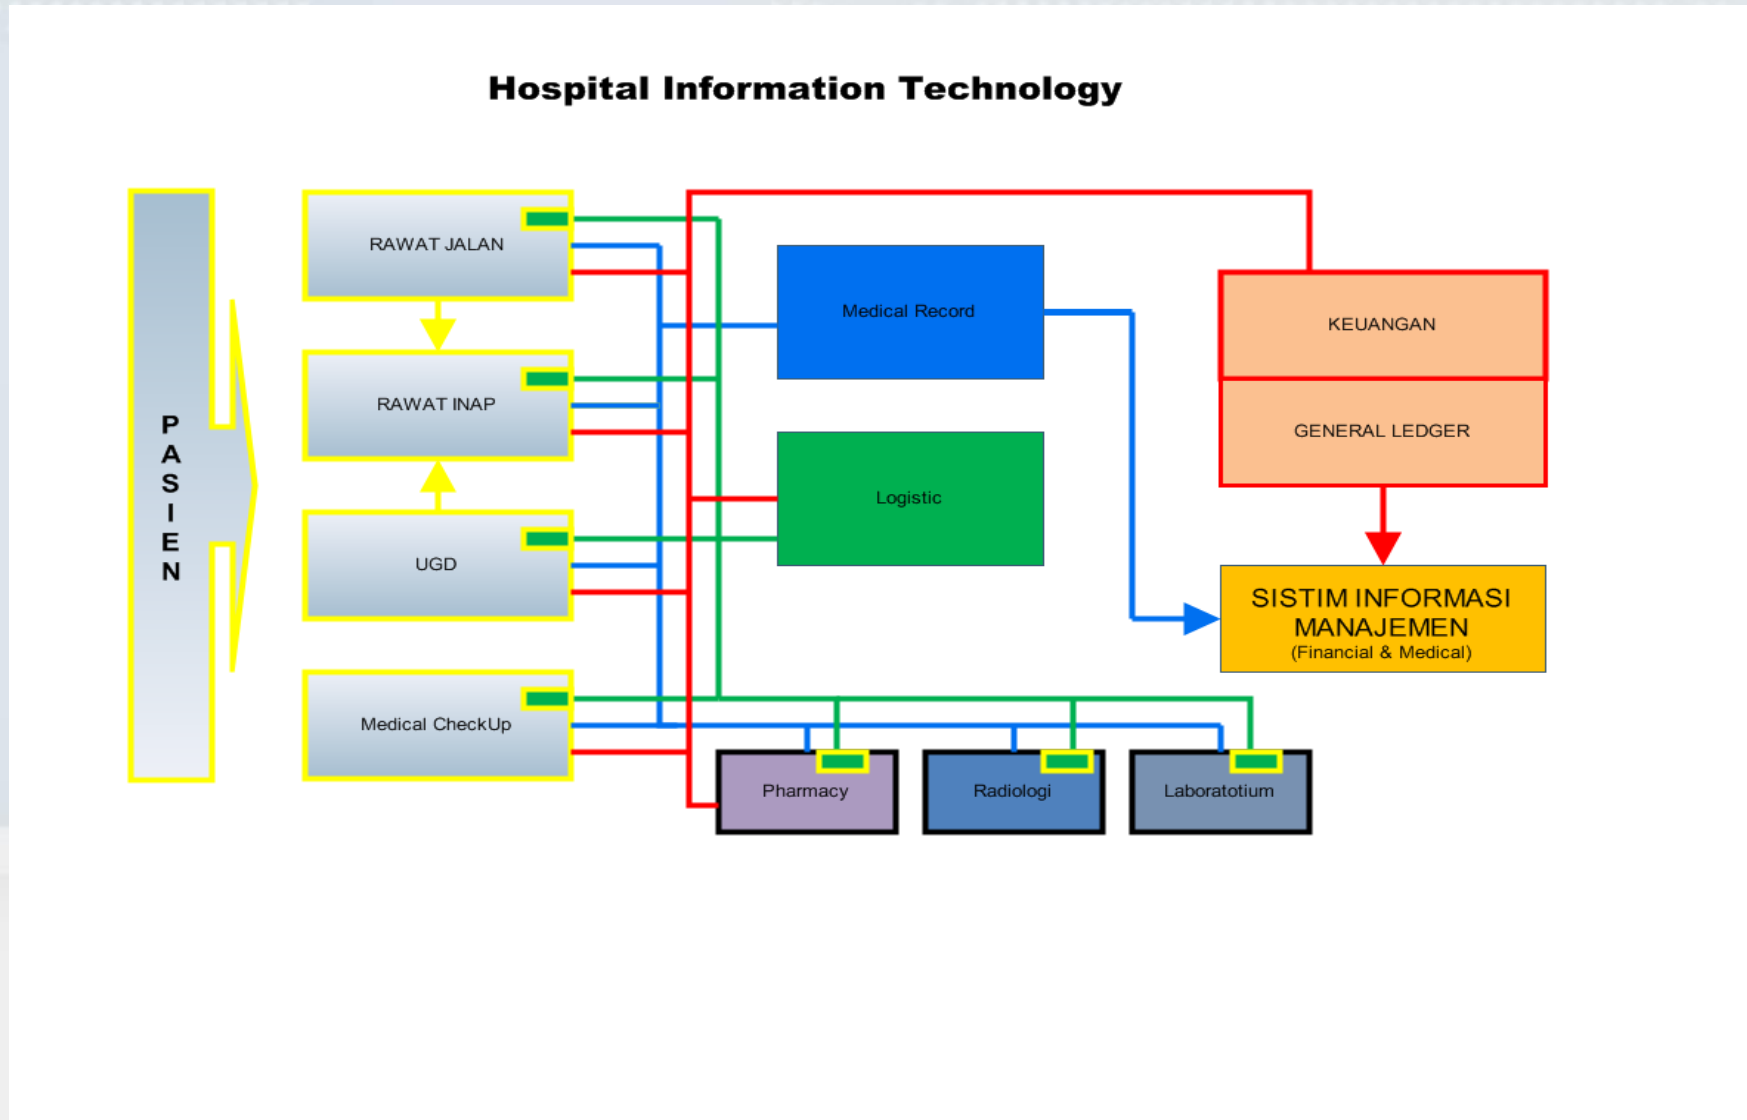

Our Product – SMARTHIS (Hospital Information System)

SMARTHIS

SMARTHIS is our Hospital Information software product that offers complete integration between front office and back office of the hospital business. Our strength is on our flexible tariff system as well as strong back office/financial module. SMARTHIS is built using the robust and multiplatform JAVA programming language.

Hospital Information System (SMARTHIS)

Our Product – Prime DOC

- Prime DOC is a **high-performance, intuitive document management system** that offers the power of enterprise document management to mid-sized companies and large organizations. Prime DOC can help any kind of organization anywhere in the world gain control over their documents, with a particular **focus on fast content retrieval and business process automation**.
- **Our solution enables your team to create, co-author, and coordinate any number of documents.** **Increase collaboration** and productivity in your organization using Prime DOC's next-generation web interface, **simple integration** into Microsoft Office and Outlook, and automatic import from your shared folders.

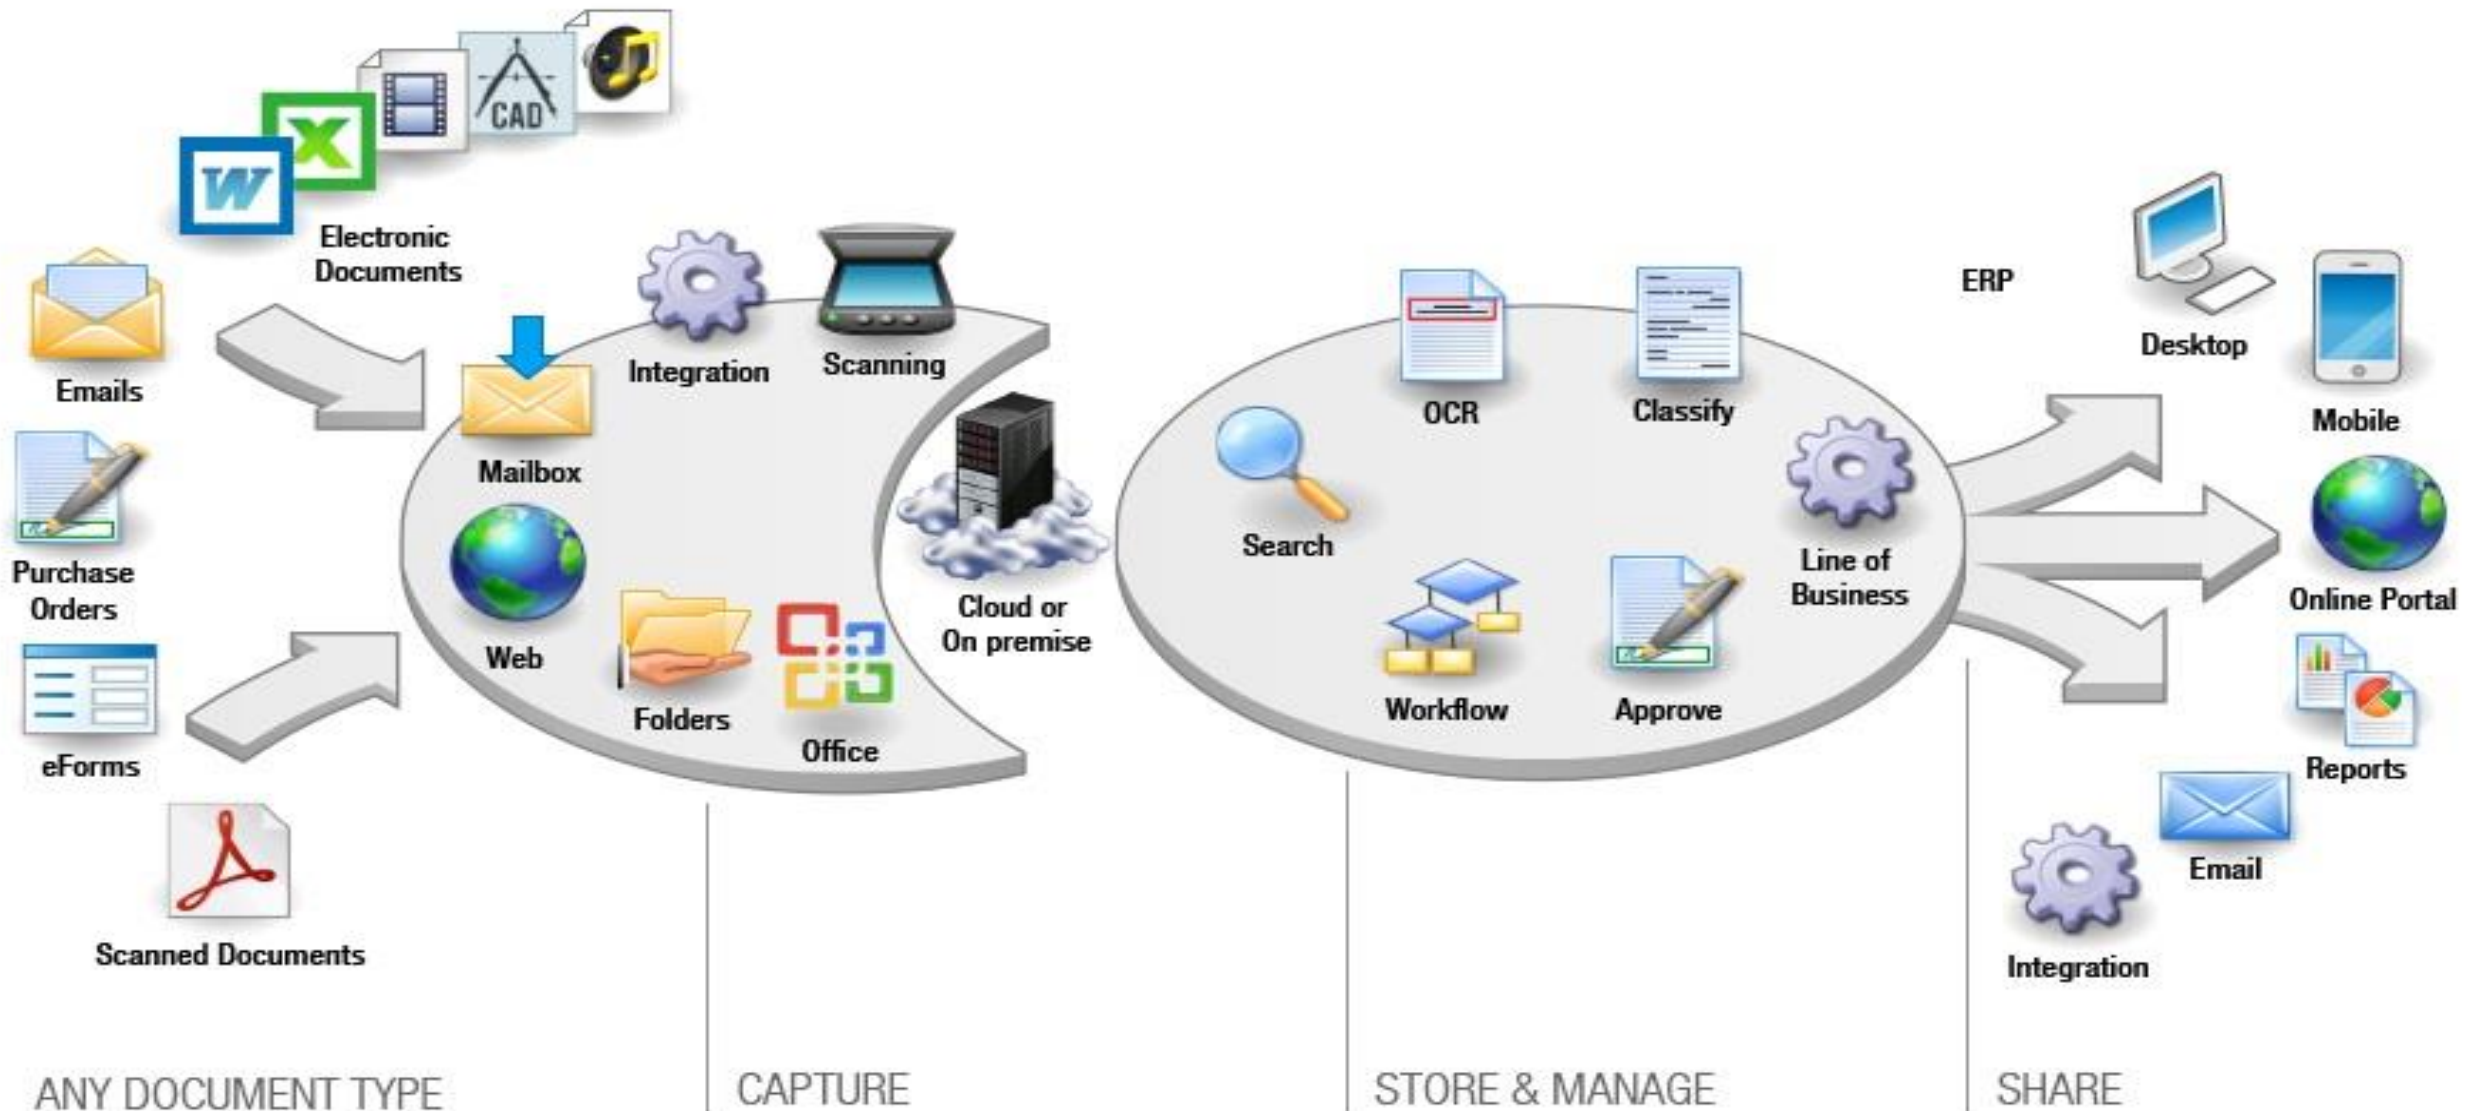

Prime Doc - Features Overview

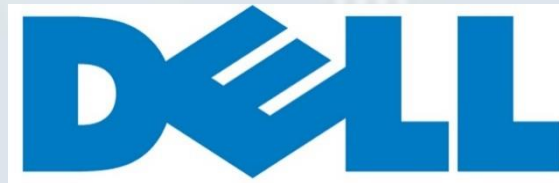

- Intuitive and easy to use web interface
- High portability (works well on broad range of hardware & supports for mobile devices)
- Integrated and powerful workflow (Share & Collaborate with other workers)
- Secure
- Cost Effective

Prime Doc - Document Management System

Reseller Partnership

Project & Client Reference

Client Reference – By Industries

- **Health Care**

- Prodia Laboratories
- RS Sentra Medika
- RS Harapan Keluarga
- RS Carolus, Sumarecon Serpong
- RS St Yosef, Priok
- RS MMC

- **Banking & Financial**

- Trinity ReInsurance Brokers
- Bank CIMB Niaga
- BCA Finance
- Bank Mandiri
- Bank Danamon

- **Manufacturing**

- PT Daya Adira
- Indofood Fritolay

- **Retail & Services**

- Ben Line Shipping Agencies
- Martinizing (Dry Cleaning & Laundry)
- Budi Purnama (used paper recycler)
- PT Harpa Sekawan (rental car)
- Globalindo Express Cargo

- **Government**

- Kementrian Keuangan (sub contracted by PT Telkomsigma)
- Pertamina

AND MANY MORE....

Client Reference – Hospital Information Sytem

- RS Sentra Medika, Cibinong
- RS Harapan Keluarga Cikarang
- RS Harapan Keluarga Jababeka
- RSIA Carolus, Sumarecon Serpong
- RS St Yosef, Tj. Priok
- RS Sari Asih Group (5 Hospital)
- RS MMC (Kuningan)
- RSIA Kemang

Client Reference – Software Development

Martinizing (Dry Cleaning)

- Web based point of sale

Budi Purnama

- Web based (PHP) core business operation

PT Harpa Sekawan (on-going)

- Custom ERP system development.

Bank Mandiri

- Mandiri Fiesta Point Mobile Apps

Client Reference – System Integration

Ben Line Agencies

- Microsoft Active Directory & Exchange

BCA Finance

- Microsoft Active Directory Audit Software

Daya Adira Mustika

- Help Desk System

Thiess Contractor

- Enterprise Network Monitoring

Angkasa Pura

- Helpdesk System
- IT Helpdesk Staff Outsourcing

Kementrian Keuangan

- System Integration, Data Centre & DRC Consolidation

Project Reference – IT Blueprint

Client Name: Prodia Laboratories

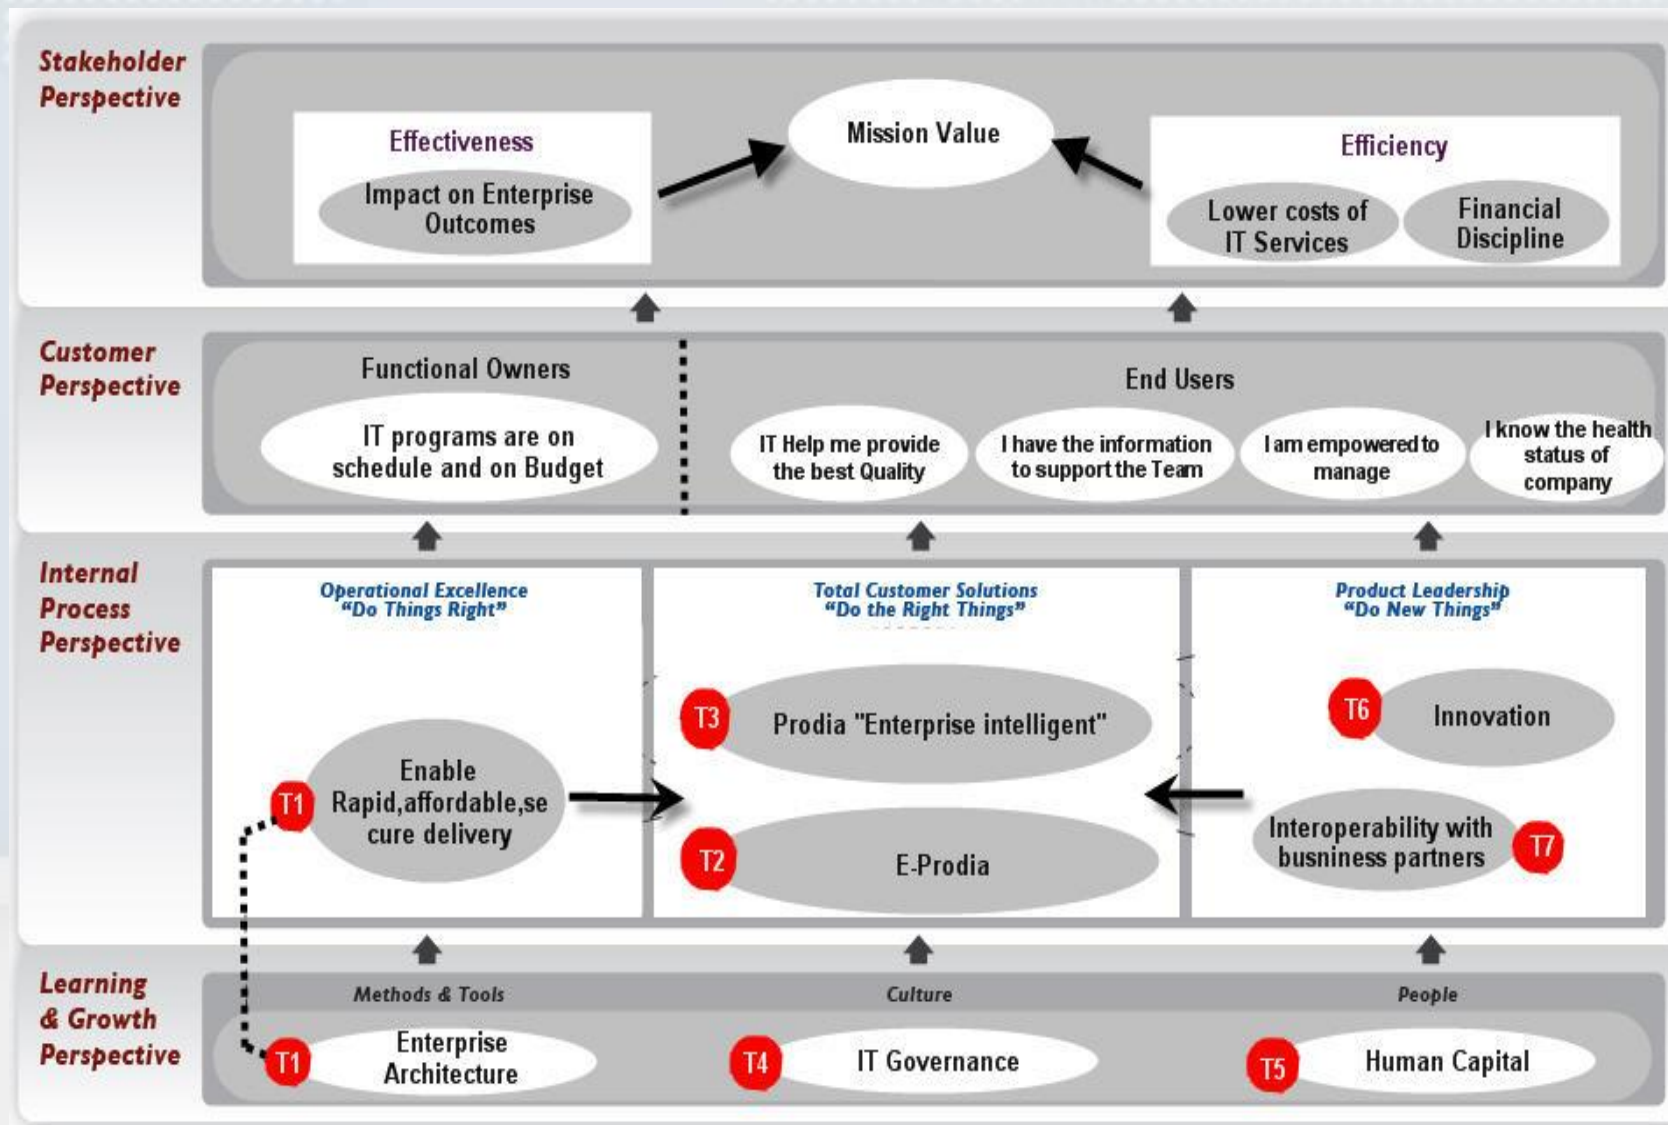

Project Description:

IT Blueprint for 6 different area:

- Strategic IT Planning
- ERP Software
- Network Infrastructure
- IT Operations
- IT Security
- Disaster Recovery and Business Continuity

Strategic IT Planning for Prodia Laboratories (Sample Blueprint)

Project Reference – Enterprise System Integration

Client Name: Ministry of Finance

Project Description:

We have successfully completed 3 years system migration and implementation for Ministry of Finance, working together with Telkomsigma (a subsidiary of PT Telkom Indonesia). This project involves various hundreds of devices across multiple technologies such as virtualization, data centre, security, email, etc

Project Reference – Active Directory Manager & Audit

Client Name: Bank Danamon Indonesia & BCA Finance

Project Description:

Bank Danamon as well known and reputable bank in Indonesia, requires a system to manage and audit its Active Director for its 60,000 employees. We have successfully implemented Manage Engine Active Directory Manager & Audit. We also have successfully implemented Active Directory Audit for BCA Finance is a subsidiary of Bank Central Asia, specializing in automotive finance.

Project Reference – Network Monitoring

Client Name: Thiess Indonesia

Thiess is an Australian Company for commercial building contractors, which has significant presence in commercial building project in Indonesia. We have successfully implemented network monitoring with Manage Engine OP Manager for approximately 500 devices.

The logo for Thiess Indonesia, featuring the word "THIESS" in a large, bold, blue sans-serif font, with "INDONESIA" in a smaller, blue sans-serif font directly below it.The logo for ManageEngine, with "ManageEngine" in a green and grey sans-serif font, and the tagline "Powering IT ahead" in a smaller, italicized grey font below it. A green circular graphic element is positioned to the right of the text.

Project Reference – Information Security

Client Name:

- Eko Kapital Sekuritas
- WKCAB – S188 (Malaysia Online Gaming Company)
- Beehouse

Project Description:

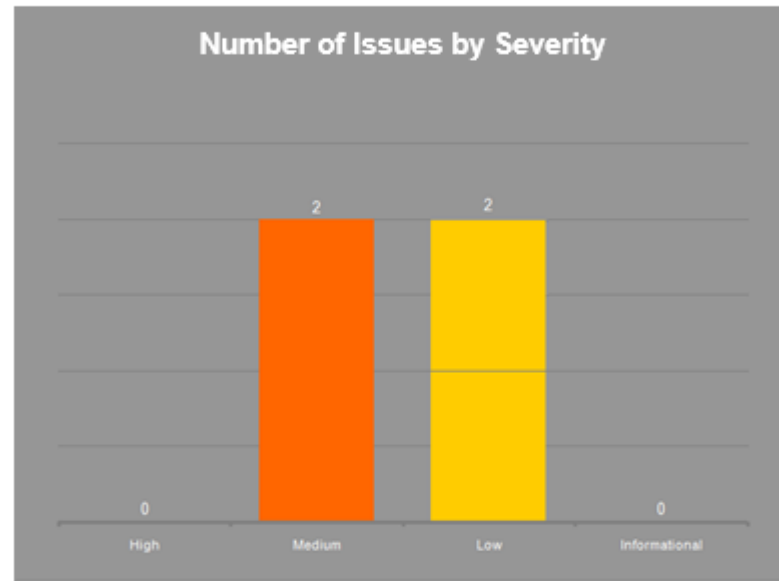

- Vulnerability Assessment
- Penetration Testing

Sample Report - VA & Penetration Testing

Executive Summary

Number of Issues (Total 3)

Numbers of Issues by Test Type

Type	Vulnerable URL
Application	2
Infrastructure	2
Total	4

Detailed Summary

High severity issues

Issue Type	Issues (All Severities)
------------	-------------------------

Medium severity issues

Issue Type	Issues (All Severities)
Unencrypted Login Request	2

Low severity issues

Issue Type	Issues (All Severities)
Robots.txt File Web Site Structure Exposure	1
Lisence.txt Wordpress Information Leakage	1

Remediation Tasks

Remediation Task	Count	Priority
Always use SSL and POST (body) parameters when sending sensitive information.	1	Medium
Move sensitive content to an isolated location to exclude it from web robot search / wordpress information leakage.	1	Low

Project Reference – Mandiri Fiesta Mobile Apps

Client Name: Bank Mandiri

Project Description:

- Develop early version of Mandiri Fiesta Point mobile apps (iOS & Android)
- Setup & managed services cloud hosting (with firewall and load balancer)

Project Reference – Web design & Social Media Campaign

Client Name: Indofood Fritolay (Qtela)

Project Description:

- Built website, and social media games for Qtela Tempe and Qtela Krupuk Launching
- Successfully execute Social Media campaign on Facebook and twitter, that brings significant brand awareness.

Intelligent Outpatient Services

Enabling Patient-Centered Services

Quality Nursing Care

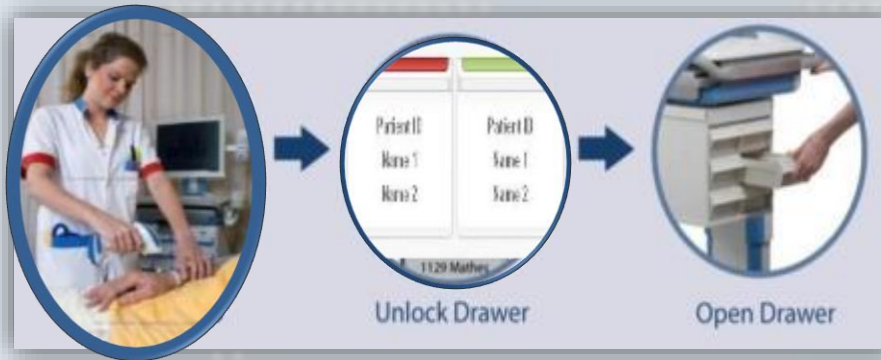

Ensuring Real-Time Care Delivery

Intelligent Medication System

Benefits

- Ensuring medication safety by opening patient-specific bin through barcode scan
- Assisting in achieving CLMA outlined in HiMSS EMRAM Stage 6

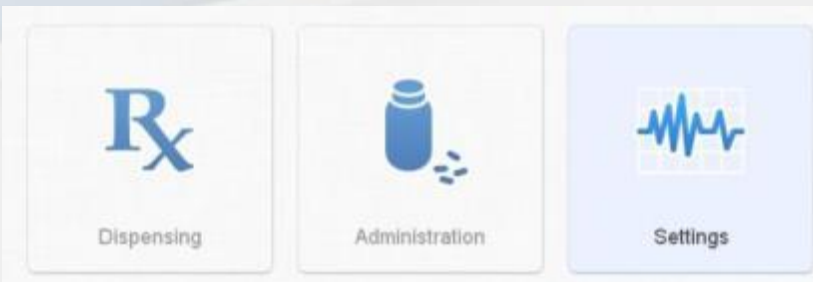

Features

- Bundled with Medi_Link software & SDK for easy EMR integration
- Access control for enhanced security
- Auto system log for management review

AMiS-50 + e-Medication Box

Patient Infotainment System

➤ PIT & HIT Series for Healthcare

1. Multi-Touch Adoption
2. All in one including MSR/RFID/Barcode...
3. Both IT & Medical Grade Cert.
4. Full size range from 10.1" to 22"

Bedside Service

Bedside Service

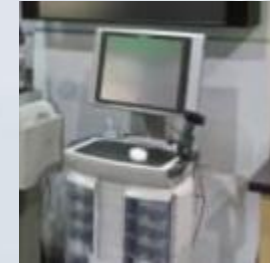

Medical Diagnosis

Nurse Call Station

Medication & Dispensing

Medical IT

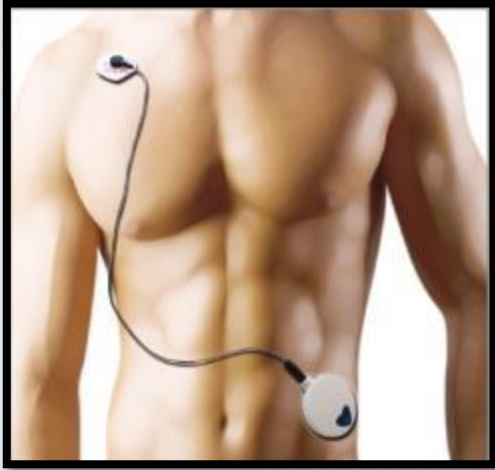

➤ HIT-BOX for Healthcare

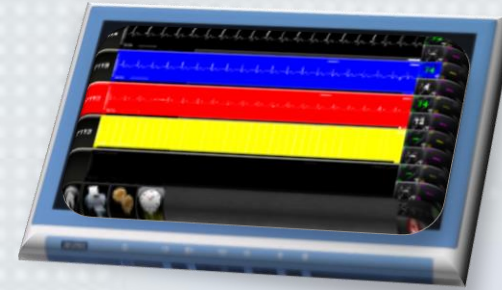

1. WiDi (Wireless Display) ready!!
2. Skin Contactable Plastic Cover
3. Mounting kit for all kind of TV /Display
4. Isolated COM/LAN port

Telemetry Monitoring at the Point-of-Care

*Continuously
Monitor*

POC

AMiS

Measuring

Features

- Centralized real-time vital sign monitoring with intelligent EKG abnormality annotation
- Alarm when preset threshold is reached
- Patient location tracking with nurse call function
- All time data recording for clinical decision making
- HIS integration ready optimizing care process
- Energy efficient for extended operating time

TPR

ECG/EKG

Integrated Operating Room

Empowering Surgical Intelligence

Optional Features

Vital Sign Monitoring Integration

POC series are your best choice for

- Anesthesia System Integration
- OR/ICU Vital Sign Monitoring
- DICOM to PACS & Medical Imaging
- Surgical Modeling
- Lab info and Diagnosis

To support clinical and administrative decision making

Medical Image Integration

MIS Features:

- Powered by **Intel® Core™ i7** processor for superior system performance
- Equipped with one expandable **PCIe x16 slot** for upgraded image capture capability
- **Dual HDD** supporting RAID 0, 1, 5, 10 backup
- **Medical-grade & fanless** design ensuring the highest infection control

Queensland Health in Australia

- Public hospitals in Queensland
 - 500 units were deployment throughout the state's *32 public hospitals*, for use in all phases of the hospital's perioperative treatment
- Project Requirement
 - Seeking a solution to *enhance automation and control of perioperative processes* throughout the hospital group
 - Wanted a *slim, easy to maintain, easy to clean* device certified for use in a medical environment
- Reason to choose Advantech POC-S157
 - History of *reliability* and success for the team-up with Medtel and Advantech
 - The *system runs well Medtel's Winchart application* to capture clinical information from patient monitoring equipment and peripheral medical devices.

Medicap in Brisbane Australia

- IT image capture solution
 - For surgeons & operating theatre staff
- Why POC-155?
 - **EN60601-1 medical certification**, the entire system (with software) meets *Australian Therapeutic Goods Administration* (TGA) approval
 - **Touchscreen** and **enclosure** can be cleaned with medical / surgical grade cleaning agents
 - **PCI expansion** for Medicap video capture card
- Benefits for Hospital
 - Reduce administrative overhead and processing time
 - Improve quality and delivery of surgical reports
 - Allows the recovery ward to prepare for a patient prior to arrival
 - Surgeons can document and archive entire procedures for reference and training

Zhejiang Provincial First Hospital

- **Project Requirement**

- A solution to **replace their existing PDAs** with a more powerful, lightweight system that had large enough displays to handle the new functionality.
- A **touchscreen** and a system that was **medically-certified**.
- A **Windows XP-based** platform, which would standardize platform development across all their systems.

- **Reason to choose Advantech MICA-101**

- **It outpaces the PDA in every way:** it displays more data; it supports images and charts; and it can present all the information in a single screen view
- Provides the **mobile link to Ewell's HIS** implementation

Shaoxing People's Hospital

- Shaoxing People's Hospital, China
 - *The largest general 3A's hospital* providing medical treatment, science research, teaching and preventative healthcare.
- Project Requirement
 - A *medical grade terminal* to complement the most advanced operating room anesthesia information system in the nation.
 - Must tolerate *periodical sterilization*
 - Compact, small space requirement
 - *Noiseless*
- Reasons for choosing Advantech
 - *Fanless*, ensuring clean and quiet computing operation.
 - *Slim type*, allowing easy installation on the arm.
 - *All-in-one design*, saves the trouble of cable management and cleaning.

Beijing Cancer Hospital Paves

- Project Requirements
 - Aim to *improve their electronic medical records system*, and *build up a mobile nursing environment*
 - Looking for a portable device that was *reliable* and *lightweight*, with *long-lasting battery* support and *easy connectivity* to their existing medical computing systems
- Reason to choose Advantech MICA-101
 - MICA-101 has given the nurses the *mobility* they were looking for, with direct access to patient records via a Wi-Fi connection.
 - An *intuitive* XGA 10.4" LCD dual-input panel (via stylus or touchscreen)
 - *Light* enough for staff to carry throughout the working day
 - Automatic patient and staff identification, as well as asset confirmation is made possible by the use of the *onboard RFID and barcode reader*

Hanyang University Hospital in Korea

- Bedside PACS at Emergency Room
 - High resolution display for DICOM viewing is required.
 - PACS retrieval speed is the key

- Reasons for choosing Advantech
 - *High performance PC* and *high resolution display* make PACS viewing fast and smooth.
 - *Compact* and *maneuverability* provides high mobility
 - *Great Service* understanding the need and provide consultation for suitable devices

AVL Hospital in the Netherlands

- Patient Data Management System
 - Cancer treatment
 - Intensive radioactive and chemical therapies along with close patient monitoring
- Intensive Care Unit (ICU) & Operating Theatre

- **Why POC-174?**
 - Medical certification
 - Easy to clean
 - Space saving

Anaesthesiologist Peter Schutte said,
"We specifically chose medical computers. Sure, you can save a few hundred euros and adapt a standard PC, but that was not the ideal option. Ordinary PCs take up too much space and collect too much dust; then you have to deal with the tangle of wiring and cables."

Saad Specialist Hospital

- Saad Specialist Hospital, Saudi Arabia
 - The highest quality medical services in eastern Saudi Arabia started in 2001 with 5,000 employee
- Project Requirement
 - Using as patient monitoring in ICU
 - Technology **customization**
 - Long term product and service support
 - **Medical** certification(s) on both standard and customized module

- Reason to choose Advantech POC-195
 - **Product longevity and continuing supports**
 - Support Saad's technology and module **customization** and help Saad to obtain medical certificates
 - PM/engineer teams' cooperation to figure the most efficient module layout design from Saad's prototype.

Pike Community Hospital in USA

- Pike Community Hospital, Ohio, USA
 - Committed to *high quality*, compassionate healthcare
 - A *25-bed* critical access designated hospital
- Project Requirement
 - A beautifully designed nursing cart to go with the new patient information management software.
 - Must *be easily cleanable* with cleaning agents that meet hospital hygiene standards.
 - Must possess *strong Wi-Fi signal* to allow nurses to travel the wards without losing internet connectivity.
- Reasons for choosing Advantech AMiS-60
 - *Fanless design* leaves no room for dust and dirt accumulation.
 - *Quiet computing operation* fits perfectly in hospital environment.
 - Two embedded, industrial-grade, *Wi-Fi antennas* ensure stable internet connection.
 - *Large work surface* with high loading capacity, saves preparation time and increases work efficiency for the nurses.

LiDCO in London, UK

- Cardiovascular Treatment
 - Develops medical sensors and software to improve care for stroke and heart patients during and after surgery
 - Real-time point-of-care cardiovascular monitoring systems
 - Reduce the costs associated with critical care

■ Why Advantech POC?

- **UL60601-1/EN60601-1** medical computing platform to complete the integration of hardware and software
- **IPX1 and IP65 (front panel)** certify water and dust resistance
- Can be easily cleaned with **isopropyl alcohol** and other **cleaning agents**
